SEJAL VAIDYA

Berlin, Germany

linkedin.com/in/vaidyasejal

SUMMARY

With 16+ years across Health Tech, e-Commerce, and regulated domains, building Data & ML systems to drive pricing experimentation, healthcare research, and product adoption at scale. Proven track record in delivering robust production ML infrastructure and user-centric data products in product-led environments, enabling cross-team initiatives, and shaping data strategy to empower innovation & growth.

PROFILE

- Permanent Residence - Germany
- sejalvaidya.com
- github.com/sejalv
- Speaker & mentor for tech communities in Berlin

SKILLS & COMPETENCIES

ML Engineering & NLP

- Python, Sagemaker, Feast, MLflow, DVC, W&B, FastAPI, Databricks, Spark, Dask, Ray PyTorch, scikit-learn, spaCy

Platform & Infrastructure

- AWS, GCP, Kubernetes, Docker, Terraform, Airflow, Dagster, Kafka, Grafana, Prometheus, Datadog

Data & Experimentation

- SQL, DBT, Growthbook, PostHog, Mixpanel, Metabase, Tableau, Snowflake, BigQuery, Redshift

Strategy & Ownership Areas

- MLOps, Model Evaluation, Switchback / A/B Testing, Observability, Product Roadmapping

WORK EXPERIENCE

Data & ML Engineering
Feb 2024 – Present

Consulting | Freelance , Berlin DE

- Fractional leadership; consulting growth-stage startups & scale-ups on data strategy, 0->1 ML systems, and platform foundations
- *Energy*: Demand forecasting for ancillary services using distributed assets (solar, EVs)
- *B2B SaaS*: Evaluation frameworks for contextual bandits to personalise merchant shop experiences across audience segments, lifting CVR by 10%
- *Digital Health:* Clinical NLP infrastructure for patient screening against trial criteria
- Exploring Agentic AI & LLM Ops tooling for production readiness patterns

Staff Machine Learning Engineer
Sep 2022 – Nov 2023

Zalando Lounge | e-Commerce , Berlin DE

- Built ML pipelines for price optimization at Lounge (offprice market), increasing 10% in product purchases by effectively measuring demand elasticity
- Scaled A/B testing infrastructure for canary rollouts, with offline backtesting to evaluate model performance, and real-time monitoring of conversion, drift & prediction accuracy
- Defined success metrics for pricing experimentation and aligned on causal measurement standards with Product, Applied Science & Economics teams

Lead – Data & ML Platform
Jun 2020 – Sep 2022

Temedica | Digital Health , Munich DE

- Led the design of a Healthcare data platform for patient journey research, providing insights on drug discovery and market adoption to leading pharmaceutical clients
- Built NLP services for Sentiment Analysis & Topic Modelling from social listening & clinical trials data, mapping knowledge graphs to medical ontologies
- Owned the data product lifecycle of RWE platforms, and partnered with commercial stakeholders, executives, and product teams to shape the strategic direction
- Guided a team to develop model monitoring frameworks with drift detection, and introduced platform standards with IaC and CI/CD for ML

Senior Data Engineer
Oct 2018 – May 2020

Freeletics | Fitness , Munich DE

- Redesigned real-time feature infrastructure for personalisation of 39M+ fitness users, keeping serving latency under 200ms
- Improved workout plan recommendations by refining feature selection, increasing user engagement by 30%
- Mentored engineers, led stakeholder workshops, and collaborated with Product & Marketing to define key metrics for activity- & retention- based segmentation

Senior Software Engineer
Apr 2015 – Mar 2017

LexisNexis Risk Solns. (Reed Elsevier) | Health Insurance , Mumbai IN / Atlanta US

- Fraud & Risk Intelligence products for anomaly claim detection, and pseudonymized identity linkage for information retrival using Named Entity Recognition (NER)

SEJAL **VAIDYA**

Berlin, Germany

linkedin.com/in/vaidyasejal

EDUCATION

Bachelor of Science - Information Technology

University of Mumbai, 2009

WORK EXPERIENCE

Business Intelligence Engineer Feb 2013 – Mar 2015

JP Morgan Chase Services | Finance , Mumbai IN

- Financial data products for Credit Risk Modeling & Marketing Analytics

Data Analyst Dec 2009 – Feb 2013

HERE Technologies | Location Tech , Mumbai IN

- Quality analysis and test frameworks for geospatial data in navigation maps

COMMUNITY & MISC. PROJECTS

- Co-Instructor, MLOps Zoomcamp and Data Engineering Zoomcamp (DataTalks.Club), *2020 - 2022*: 20k+ enrollments; topics include model deployment, monitoring, and ML lifecycle
- Speaker & workshop facilitator, *2020 - 2022*: containerized ML deployment with AWS Lambda, podcast interviews on trends in production ML practices and data engineering
- Exploring LLM evaluation and observability patterns (golden sets, regression checks, online A/B) to get agentic AI production-ready
